

## **Transportation Logistics & Freight Traffic Management for the Metals Industry**

June 8 - 10, 2010 - Rolling Meadows, IL

Each day your company relies on numerous methods of transportation to receive material from your suppliers and to get your products to your customers. As energy costs continue to rise, transportation management becomes an ever greater aspect of cost control. How well are you controlling transportation costs? Are you getting the most for your transportation dollar?

Join your peers from service centers and mills throughout North America in this hands-on program, specifically geared to the metals industry.

Logistics and Freight Transportation Management is designed to provide warehouse supervisors and transportation managers with the knowledge necessary to better transportation logistics, control costs and improve productivity.

**Topics include:**

- Modes of Carriage and Transportation
- Private Truck Fleet Operations
- Transportation Documentation and Financial Implications
- Outbound Shipments to Customers
- Inbound Shipments from Suppliers
- Intermodal Commercial Terms
- Transportation Pricing and Freight Tariffs
- Freight Bills and Freight Claims
- International Transportation and Global Financial Issues
- Intermodal and Third Party Providers
- Transportation Contract Preparation and Solicitation

RONALD D. GROSSMAN, PMC, PCMH, has a well deserved reputation as a Consultant and a Trainer in the fields of Supply Chain Management, Logistics, Traffic and Warehouse Management, E- Procurement, Systems Enhancement and Implementation, and Export/Import Operations. With over 30 years of experience, he offers a strong domestic and international background through his line, staff, business consulting and education activity in the areas of supply chain management, traffic and transportation, automatic data collection, logistics systems, and warehousing distribution. An Executive Consultant with CATTAN Services Group, Inc., Ron is a Certified Lean Practitioner.

**Who Should Attend:**

This intensive three day program has been designed primarily for warehouse managers, warehouse supervisors, plant superintendents, logistics managers and materials manager.

The course will begin at 8:00 a.m. on Tuesday, June 8, 2010, with the program ending at noon on Thursday, June 10. The dress code for this program is business casual.
