ASSOCIATE MEMBERSHIP AS DEFINED IN THE INSTITUTE’S BY-LAWS

ARTICLE I Section 1.2. Qualifications for Membership.

(b) Associate Members. Any corporation, partnership, sole proprietorship or individual with facilities in the United States, Canada or Mexico engaged for their own account in the production of one or more of the metals products upon which Active Member dues of this Institute are based shall be eligible for Associate Membership provided, however, that the membership of any corporation, partnership, sole proprietorship or individual admitted to Associate Membership prior to any change in the designation of products upon which Active Membership dues are based, shall be unaffected by such change.

HOW ASSOCIATE MEMBERSHIP DUES ARE ESTABLISHED

Article VIII, Section 8.2, of the Institute’s By-Laws provides:

Each Associate Member and Affiliate Member shall pay such dues as shall be determined by the Directors to be fair and equitable for such member, considering all the circumstances.

Annual dues for Associate Members are established by the Board of Directors of the Institute. Associate members admitted to membership during the course of a fiscal year pay dues prorated to December 31.

Applicant certifies that the foregoing information is correct to the best of its knowledge and information.

**2019 DUES SCHEDULE
Associate Member**

Under \$5 Million in gross steel, copper/brass and/or aluminum sales to North American service centers	\$6,660	+\$700 per production facility
\$5 to \$100 Million	\$9,920	+\$700 per production facility
\$100 to \$250 Million	\$13,490	+\$700 per production facility
\$250 to \$500 Million	\$23,780	+\$700 per production facility
\$500 to \$750 Million	\$27,340	+\$700 per production facility
\$750 Million to \$1 Billion	\$30,900	+\$700 per production facility
Over \$1 Billion	\$34,480	+\$700 per production facility

Guidelines for Associate Membership. Companies in the United States, Canada or Mexico producing metal to be resold by service centers. Associate members must own and have active manufacturing or finishing facilities in the United States, Canada or Mexico producing metals for resale to service centers. District sales managers of Associate members are placed on both national and chapter mailing lists.

As a part of the determination of the annual dues calculation for Associate Members, a production facility is defined as one geographic location in North America that performs any type of metal production or processing for shipments to service centers – melting, smelting and casting, extruding, rolling, heat-treating, pickling, galvanizing, blanking, slitting, or any other production or processing of owned material. Each separate location is considered a production facility.

Sales offices and corporate offices located in office parks distinct from manufacturing or processing facilities are not considered a production facility. A depot or stocking location is also not considered a production facility.

Dues Schedule. Schedules for Active, Associate, Affiliate and International members are reviewed yearly by the Budget and Executive Committees prior to recommendation to the Board of Directors during the November meeting.

MSCI MEMBERSHIP GUIDELINES

As an ongoing and annual condition of membership in MSCI, all members (irrespective of their category) are expected to fulfill and comply with all policy statements and guidelines (“Guidelines”). While the entirety of those Guidelines can be found and reviewed on the MSCI website (www.msci.org), examples of those Guidelines include, but are not limited to:

- If a member receives or subscribes to certain MSCI data reports whose access is restricted within their member companies (and may not be distributed or disseminated to third parties), then the member may forfeit the right to continue to receive said reports (or membership may be revoked) if such improper disclosures are made;
- MSCI has a strong commitment to antitrust compliance (an example of one of the Institute’s policy statements is attached hereto) and all members are expected to comply with said anti-trust policies at MSCI sponsored events and conferences. Failure to do so may result in revocation of membership in the Institute;
- All members in leadership positions within the Institute (e.g., the Board of Directors, Chapter Officers & Directors, Council members, etc.) are expected to comply with a Code of Conduct in connection with their duties. If representatives of members or their guests do not comply with that Code of Conduct with respect to their interactions with other members or MSCI staff, then MSCI reserves the right upon proper notification to suspend membership privileges upon violations of this Code of Conduct;
- All members are expected to insure that representatives of their companies adhere to MSCI policies on the proper use of MSCI intellectual property, including MSCI trademarks and logos;
- Conference registrations include certain requirements (e.g., no recording or videotaping; proper display of registration badges at all times for members and guests) for both member representatives and their guests (e.g., spouses). In addition, many of our hotel conference host properties and hotels post their own set of guidelines. Refusal to abide by these regulations may result in suspension of conference or membership privileges.

Prior to submitting your annual dues for membership, MSCI encourages members and prospective members to review these various policies, some of which are outlined above. If a member or potential member applicant company has any questions about these policies or Guidelines, some of which are outlined above, please feel free to contact an MSCI staff member.

Thank you for your continued interest and participation in the Metals Service Center Institute, the premier metals trade association in North America. With your continued involvement and support, MSCI can continue to expand its prominence in the coming year.
