

# Oregon Chapter Metals Service Center Institute

100 YEARS STRONG

M. Robert Weidner, III  
President & Chief Executive Officer  
Metals Service Center Institute

Bob Weidner is President and CEO of the Metals Service Center Institute, a \$10 million, century-old trade association representing producers and distributors of aluminum, carbon and stainless steel. Since joining the association in 2001, he has fiercely advocated for North American manufacturing and the use of industrial metals.

Under his leadership, MSCI successfully completed a turnaround strategy, grew its revenue from \$4 million to \$10 million, and transformed its membership – nearly 60% of members at year-end, 2015, weren't members at year-end, 2001. This makeover included a merger with the former National Association of Aluminum Distributors and expansion of membership category definitions. MSCI launched numerous new proprietary products and services including: an executive education program at the Olin Business School at Washington University in St. Louis, several quantitative and analytical tools, and a partnership with the National Safety Council. MSCI is an active member of several Coalitions advocating on behalf of manufacturing and free enterprise. Working with its 30 chapters, MSCI engages in grass roots advocacy and has a joint scholarship program, which has granted nearly \$5 million to nearly 2,500 children of member company families.

This year Bob's presentation will include:

- MSCI News
- Economic Updates
- A look forward in: Policy, technology and changes in our industry

Our Annual Business Meeting will take place at 7:30 prior to the breakfast and presentation. During the meeting, we will present the annual financial report, conduct elections for any open board member openings and discuss this year's Scholarship Program and Golf Tournament.

**Date**  
Wednesday, May 23rd, 2019
